### AMENDMENTS TO THE CLAIMS

1-26. (Canceled).

27. (Currently amended) An isolated polypeptide comprising:

(a) the amino acid sequence of the polypeptide of SEQ ID NO:7; or

~~(b) the amino acid sequence of the polypeptide of SEQ ID NO:7, lacking its associated signal peptide;~~

~~(c) the amino acid sequence of the extracellular domain of the polypeptide of SEQ ID NO:7;~~

~~(d) the amino acid sequence of the extracellular domain of the polypeptide of SEQ ID NO:7, lacking its associated signal peptide; or~~

(b)(e) the amino acid sequence of the polypeptide encoded by the full-length coding sequence of the cDNA deposited under ATCC accession number 203661.

28. (Previously presented) The isolated polypeptide of Claim 27 comprising the amino acid sequence of the polypeptide of SEQ ID NO:7.

29-31. (Canceled).

32. (Previously presented) The isolated polypeptide of Claim 27 comprising the amino acid sequence of the polypeptide encoded by the full-length coding sequence of the cDNA deposited under ATCC accession number 203661.

33. (Previously presented) A chimeric polypeptide comprising a polypeptide according to Claim 27 fused to a heterologous polypeptide.

34. (Previously presented) The chimeric polypeptide of Claim 33, wherein said heterologous polypeptide is a tag polypeptide or an Fc region of an immunoglobulin.

35-46. (Canceled).

48. (Currently amended) An isolated polypeptide having at least 95% amino acid sequence identity to:

(a) the amino acid sequence of the polypeptide of SEQ ID NO:7; or

~~(b) the amino acid sequence of the polypeptide of SEQ ID NO:7, lacking its associated signal peptide;~~

~~(c) the amino acid sequence of the extracellular domain of the polypeptide of SEQ ID NO:7;~~

Appl. No. : 10/032,996  
Filed : December 27, 2001

~~(d) the amino acid sequence of the extracellular domain of the polypeptide of SEQ ID NO:7, lacking its associated signal peptide; or~~

(b)(e) the amino acid sequence of the polypeptide encoded by the full-length coding sequence of the cDNA deposited under ATCC accession number 203661;

wherein said isolated polypeptide or a fragment thereof can be used to generate an antibody which can be used to specifically detect the polypeptide of SEQ ID NO:7 in lung or colon tissue samples.

49. (Previously presented) The isolated polypeptide of Claim 48, wherein said amino acid sequence identity is at least 96%.

50. (Previously presented) The isolated polypeptide of Claim 48, wherein said amino acid sequence identity is at least 97%.

51. (Previously presented) The isolated polypeptide of Claim 48, wherein said amino acid sequence identity is at least 98%.

52. (Previously presented) The isolated polypeptide of Claim 48, wherein said amino acid sequence identity is at least 99%.

53. (Previously presented) A chimeric polypeptide comprising a polypeptide according to Claim 48 fused to a heterologous polypeptide.

54. (Previously presented) The chimeric polypeptide of Claim 53, wherein said heterologous polypeptide is a tag polypeptide or an Fc region of an immunoglobulin.
